# Going virtual implied a big drop of our expenses:

- travel reimbursement,
- on site communication,
- catering,
- etc.

So, we invited our #pts20 sponsors  
to stay sponsors for #pts21 at no cost.

So Zoom is a  
Free Software, right?

TL;DR: **no**.

Sorry for that.

Longer:

- a **small** team,
- a **least-risk approach** for exposing our **speakers work**,
- support from Lille university with their Zoom plan.

Concert

YES! We are the only guys  
that decided to set up a concert  
for the 1st time  
when they switched to VIRTUAL!

Dear speakers,  
the (virtual) stage is yours!
